

LEAP UTILITY BOX

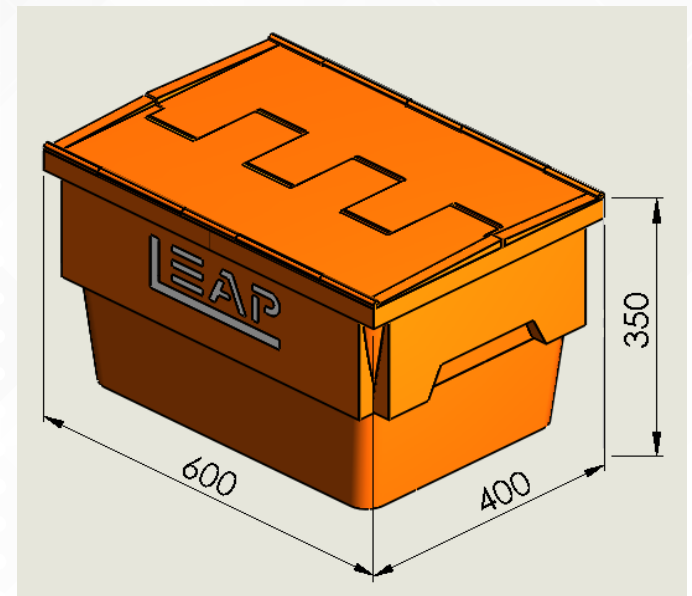

LEAP Utility box is robust, lightweight, stackable and nestable material handling solution valuable for last mile delivery best suited for industries which involve the movement of consumable goods from one location to other on a daily basis.

FEATURES

- Made out of Solid PP-Copolymer
- Utility Boxes/Crates will replace carton, which will be a one time expenditure.
- Reusable material which leads to no wastage and scrapping expense.
- Tracking of material with advanced technologies.
- Sturdy, durable and protects products from damage, dust etc.
- Less space for empty storage and transfer. Ergonomic operations.

DIMENSIONS

TECH SPECS

Product(SAP) Code	Product Dimensions (L x B x H) in mm	Type	Material
A080000002	600 x 400 x 350	UB with lid	PP copolymer
A080000003	600 x 400 x 300	UB with lid	PP copolymer
A080000005	600 x 400 x 250	UB with lid	PP copolymer
A080000012	400 x 300 x 282	UB with lid	PP copolymer
A080000009	600 x 400 x 367	UB with lid	PP copolymer
A080000010	400 x 300 x 306	UB with lid	
A080000011	400 x 300 x 222	UB with lid	PP copolymer
A080000024	400 x 300 x 320	UB with lid	PP copolymer
A080000025	600 x 400 x 320	UB without lid	PP copolymer
A080000004	600 x 400 x 320	UB with lid	PP copolymer

USP

- Suitable for line side storage.
- Reduced environmental impact. Fully recyclable materials result in minimal wastage in the Supply Chain.
- Fitted with industry-standard label holders to easily identify container Crate contents.
- The compatible product design allows to mix previous generation Crate. We can load 600x400 (mm) and 400x300 (mm) Crates together.
- When empty, efficient stacking capabilities of the LEAP Crate results in reduced storage space.
- Best suited for JIT (Just in Time delivery).
- Offers enhanced protection against damage and dust.
